#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 – 3, drawn to the structure of a pair of longitudinal ears positioned with gaps between lateral support ribs.

Group II, claims 11 – 12, drawn to the structure of at least one longitudinal ear with an aperture in combination with a pivot pin and locking washer arrangement.

Group III, claims 4 – 5, drawn to the structure of a planar shelf member directly connected to one select support rib.

Group IV, claims 6 – 10, drawn to the structure of a hook jaw pin in combination with an adjustment pin arrangement.

Group V, claims 13 – 18, drawn to the structure of a hook jaw in combination with a release handle arrangement.

2. The inventions listed as Groups I, II, III, IV, and V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I, II, III and IV does not require the special technical feature of a hook jaw in combination with a release handle arrangement as required by Group V.

Group I, II, III and V does not require the special technical feature of a hook jaw pin in combination with an adjustment pin arrangement as required by Group IV.

Group I, II, IV and V does not require the special technical feature of a planar shelf member directly connected to one select support rib as required by Group III.

Group I, III, IV and V does not require the special technical feature of at least one longitudinal ear with an aperture in combination with a pivot pin and locking washer arrangement as required by Group II.

Group II, III, IV and V does not require the special technical feature of a pair of longitudinal ears positioned with gaps between lateral support ribs as required by Group I.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Yeagley whose telephone number is (571)272-6655. The examiner can normally be reached on Mon. - Thur..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley D. Morris can be reached on (571) - 272 - 6651. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
